The Indian mutual fund industry continued its upward trajectory in December 2023, reaching a new high of Rs 50.78 lakh crore in net assets under management (AUM), according to data from the Association of Mutual Funds of India (AMFI). This marks a 3% rise compared to Rs 49.05 lakh crore at the end of November.

Open-ended schemes saw their AUM climb to Rs 50.48 lakh crore by December-end, up from Rs 48.78 lakh crore in November. Equity schemes within this category continued to attract investors, with net inflows rising 9% to Rs 16,997 crore compared to November's Rs 15,536 crore.

Within equity, smallcap funds drew the most significant inflows in December, attracting Rs 3,857 crore. Midcap funds followed suit with Rs 1,393 crore, while largecap funds saw net outflows of Rs 280 crore. Debt funds, however, witnessed continued net outflows in December, totaling Rs 75,560 crore, a significant increase from Rs 4,706 crore in November. Liquid funds bore the brunt of this outflow, with Rs 39,675 crore exiting the category. Other debt segments like low-duration, money market, ultra-short duration, and floater funds also saw significant outflows.

Hybrid schemes, offering a mix of equity and debt exposure, bucked the trend with net inflows of Rs 15,009 crore in December. This was largely driven by arbitrage funds, which attracted Rs 10,645 crore.
