Market Overview:

On an Expiry-to-Expiry basis, the Nifty spot registered a gain of 2.05%, closing at 24,833.60 levels. This marks the third consecutive monthly advance for the Nifty, demonstrating resilience despite several macroeconomic and geopolitical headwinds. Market sentiment remained broadly positive even in the face of tariff-related uncertainties, a brief episode of border tension with Pakistan, and persistent concerns surrounding a potential slowdown in U.S. economic growth. The rally was further supported by a revival in foreign institutional inflows, driven by growing optimism over a sustained recovery in domestic corporate earnings. Additionally, investor confidence was bolstered by rising expectations of a rate cut by the Reserve Bank of India (RBI) and a favorable forecast of an above-normal monsoon, both of which are seen as potential catalysts for continued economic momentum.

Nifty & Bank Nifty Rollover:

In May, the Nifty Future experienced a rollover of 79.10%, which stands slightly higher than the 3 months average of 78.09% and bit lower than the 6 months average of 79.38%. The rollover cost for Nifty was 0.52%, lower than the 3 & 6-month average of 0.61% & 0.66% respectively.

On the other hand, Bank Nifty saw a rollover of 79.29%, which is higher compared to the 3-month average of 77.11% and the 6-month averages of 76.65%. The rollover cost for Bank Nifty was 0.71%, higher than the 3 & 6 month averages of 0.50% & 0.63% respectively.

Sector wise Rollover:

During the rollover activity for the month, sectors such Power, Chemicals and FMCG demonstrated robust participation. In contrast, sectors like Textile, Capital Market and Technology saw weak rollover.

Market Sentiment:

Nifty marking its third straight monthly rise. This positive momentum, despite global and geopolitical concerns, reflects strong investor confidence. Renewed foreign inflows, optimism around corporate earnings, hopes of an RBI rate cut, and an above-normal monsoon forecast are expected to support market sentiment going into June.

Nifty spot support is seen at 23,400, followed by 23,300. Holding above these levels could drive Nifty towards 25,900, followed by 26,200.
