Details of the services being offered: Discretionary/ Non-discretionary / Advisory

Discretionary Portfolio Management: Under this service, the Portfolio Manager has full discretion and autonomy to make investment decisions on behalf of the client. The client entrusts the Portfolio Manager with the authority to manage their portfolio without requiring explicit approval for each transaction. The Portfolio Manager exercises professional judgment and expertise to make investment decisions aligned with the client's stated investment objectives, risk tolerance, and financial situation. The portfolio managers' decision (taken in good faith) in deployment of the Clients' account is absolute and final and cannot be called in question or be open to review at time during the currency of the agreement or any time thereafter except on the ground of malafide, fraud, conflict of interest or gross negligence

Non-Discretionary Portfolio Management: In this service, the Portfolio Manager manages the client's portfolio based on discussions and explicit permissions obtained from the client. Unlike discretionary management, where the Portfolio Manager has full discretion, here, the Portfolio Manager advises the client on investment strategies and recommendations, but the final decision to execute transactions rests with the client. The Portfolio Manager provides insights and expertise to assist the client in making informed investment decisions while respecting the client's ultimate control over their portfolio.

Advisory: The Client is advised on buy/sell decision within the overall risk profile without any backoffice responsibility of trade execution, custody or accounting functions.

The Portfolio Manager also offers discretionary or non-discretionary or advisory services for investment up to 100% of the assets under management of the large value accredited investors in unlisted securities, with appropriate disclosures in the disclosure document and as per the terms agreed between the client and the portfolio manager.

These types of services cater to clients with different preferences regarding the level of control and involvement they desire in the management of their investment portfolios. Whether clients prefer to delegate investment decisions entirely to the Portfolio Manager or actively participate in the decision-making process, the Portfolio Manager offers tailored solutions to meet their individual needs and objectives.

4) **Penalties, pending litigation or proceedings, findings of inspection or investigations for which action may have been taken or initiated by any regulatory authority** {We are disclosing the information for last 5 financial years}

1. All cases of penalties imposed by the Board or the directions issued by the Board under the Act or rules or regulations made there under : We have been issued an administrative warning for the inspection of our books of accounts for the period April 01 2024 to March 31 2025. It pertained to procedural errors, technical and venial lapses which not being material in nature for the operations of the Company as a Portfolio Manager.

2. The nature of the penalty/direction: Exchanges have levied monetary penalties pursuant to offsite and regular inspection for our broking license, on account of procedural, technical and venial lapses observed. These penalties have been levied for procedural errors, technical and venial lapses which not being material in nature for the operations of the Company either as a Portfolio Manager or as a Member Broker of the Exchanges having levied such penalties.

3. Penalties/fines imposed for any economic offence and/ or for violation of any securities laws: Nil

4. Any pending material litigation/legal proceedings against the portfolio manager/key personnel with separate disclosure regarding pending criminal cases, if any: Nil

5. Any deficiency in the systems and operations of the portfolio manager observed by the Board or any regulatory agency: Nil

6. Any enquiry/ adjudication proceedings initiated by the Board against the portfolio manager or its directors, principal officer or employee or any person directly or indirectly connected with the portfolio manager or its directors, principal officer or employee, under the Act or rules or regulations made thereunder: Nil

5) Details of the services offered

The Portfolio Manager provides the following distinct types of services:

Discretionary Portfolio Management: Under this service, the Portfolio Manager has full discretion and autonomy to make investment decisions on behalf of the client. The client entrusts the Portfolio Manager with the authority to manage their portfolio without requiring explicit approval for each transaction. The Portfolio Manager exercises professional judgment and expertise to make investment decisions aligned with the client's stated investment objectives, risk tolerance, and financial situation. The portfolio managers' decision (taken in good faith) in deployment of the Clients' account is absolute and final and cannot be called in question or be open to review at time during the currency of the agreement or any time thereafter except on the ground of malafide, fraud, conflict of interest or gross negligence

Non-Discretionary Portfolio Management: In this service, the Portfolio Manager manages the client's portfolio based on discussions and explicit permissions obtained from the client. Unlike discretionary management, where the Portfolio Manager has full discretion, here, the Portfolio Manager advises the client on investment strategies and recommendations, but the final decision to execute transactions rests with the client. The Portfolio Manager provides insights and expertise to assist the client in making informed investment decisions while respecting the client's ultimate control over their portfolio.

Advisory: The Client is advised on buy/sell decision within the overall risk profile without any backoffice responsibility of trade execution, custody or accounting functions.

The Portfolio Manager also offers discretionary or non-discretionary or advisory services for investment up to 100% of the assets under management of the large value accredited investors in unlisted securities, with appropriate disclosures in the disclosure document and as per the terms agreed between the client and the portfolio manager.

These types of services cater to clients with different preferences regarding the level of control and involvement they desire in the management of their investment portfolios. Whether clients prefer to delegate investment decisions entirely to the Portfolio Manager or actively participate in the decision-making process, the Portfolio Manager offers tailored solutions to meet their individual needs and objectives.

Investment Objective

The **investment objective** outlined is focused on seeking capital appreciation over the long term with the aim of wealth creation through the power of compounding. Here's a breakdown of what this objective entails:

1. Capital Appreciation: The primary goal of the investment strategy is to achieve growth in the value of the portfolio over an extended period. This can be accomplished through various means, such as investing in assets that have the potential for growth, including stocks of companies with strong growth prospects, growth-oriented mutual funds, or other vehicles that offer the potential for increasing returns.
2. Long-Term Focus: The investment approach is geared towards the long term, indicating that the investor is willing to hold onto investments for an extended period, typically measured in years rather than months. This long-term perspective allows for the benefits of compounding to accrue over time, as investment returns are reinvested to generate further growth.
3. Wealth Creation: The overarching aim is to generate wealth for the investor. Wealth creation involves building financial assets and net worth over time, often with the objective of achieving specific financial goals, such as retirement planning, funding education expenses, or creating a legacy for future generations.

4. Long-Term Compounding: The strategy emphasizes the power of compounding, where investment returns generate additional returns over time. By reinvesting earnings and allowing them to compound, the investor can potentially accelerate the growth of their investment portfolio exponentially over the long term.

In summary, the investment objective is centered around achieving capital appreciation over the long term through a strategy focused on wealth creation via the compounding effect. This objective sets the foundation for designing an investment portfolio aligned with the investor's goals and risk tolerance, with a focus on maximizing growth opportunities while managing associated risks.

Investment approach

The **Investment approach** outlined is designed to align with the investment objective of seeking capital appreciation over the long term. Here's how the investment approach aims to achieve this objective:

1. Equity Shares of Companies: The primary focus of the investment approach is on equity shares of companies, both listed and unlisted. Investing in equity shares provides exposure to the ownership of businesses, allowing for potential capital appreciation as the companies grow and generate profits. Equity investments offer the potential for higher returns over the long term compared to other asset classes, albeit with higher volatility and risk.
2. Units of Mutual Funds: Alongside direct investments in equity shares, the investment approach also includes deploying funds into units of mutual funds. Mutual funds pool money from multiple investors to invest in a diversified portfolio of securities, including equities, bonds, and other assets. By investing in mutual funds, the Portfolio Manager can access professional fund management expertise and achieve diversification across a broader range of securities, helping to mitigate risk while potentially capturing upside opportunities in the market.
3. Flexibility in Instrument and Asset Class Selection: The investment approach allows for flexibility in deploying funds across various instruments and asset classes, provided they fall within the definitions set by the Regulator. This flexibility enables the Portfolio Manager to adapt to changing market conditions and opportunities, allocating capital to different asset classes or investment strategies as deemed appropriate to achieve the investment objective while adhering to regulatory guidelines.

By focusing primarily on equity shares of companies and units of mutual funds, while also maintaining flexibility to explore other instruments and asset classes, the investment approach aims to capitalize on growth opportunities in the market while managing risk effectively. This approach reflects a balanced strategy that leverages the potential for higher returns from equities while diversifying risk through exposure to mutual funds and other permissible assets.

The policies for investments in associates/ group companies of the Portfolio Manager and the maximum percentage of such investments therein would be subject to the applicable laws / regulations/ guidelines. As per Securities and Exchange Board Of India (Portfolio Managers) (Amendment) Regulations, 2020, minimum investment amount of Rs. 50 Lakhs per client shall be applicable for new clients and fresh investments by existing clients.

PMS Portfolios Schemes along with Investment approach

1. Dynamic InvestmentPortfolio

The main objective of the Dynamic Investment Portfolio is to generate long-term capital appreciation through Investment in Indian listed companies with a focus on investing out of large, mid and small cap companies which are available at a discount to their fair value based on their long term growth prospects. The portfolio is agnostic to market capitalisation and is designed to look for under-valued businesses. Some of the criterions we look at for identifying businesses are:

- Companies with significant growth potential not fully recognised by the market
- Undervaluation based on their replacement cost/ asset values
- Companies going through a temporary crisis but their underlying business structure and outlook appear to be robust
- Changes in management, restructuring and shifts in business and economic conditions
- Potential for value enhancements from strategic sale, de-regulation, economic legislation, reform thrusts, industry shakeouts, etc.
- Quality of management
- Special Opportunities – Corporate actions

Suitability: Portfolios suitable for clients with high risk profile

Ideal tenure: Appx. 36+ Months

Stock Limits: Not more than 25 stocks and generally not more than *20%* in an individual security at the time of investment

Allocation:

- Large, Mid and Small Cap 0% - 100%

Benchmark : S&P BSE 500

Note: Fund Manager on his discretion may deviate from this allocation depending on Market expectation and Client's Portfolio Objective Statement and may invest in companies of any sector

The Portfolio Manager may invest in derivatives or any other instrument as may be permitted by SEBI / RBI / such other Regulatory Authority from time to time including Units of Schemes of Mutual Funds and as may be decided by the Portfolio Manager. The Portfolio Manager may also participate in the Securities Lending Scheme.

2. Customize Portfolio

Customize Portfolio, is a tailor made portfolio to address the investor's unique objectives. Investment objectives may vary from client to client and therefore, depending on the individual client requirements, the portfolio can be structured / customized based on the client's specifications. Fund Manager in consultation with the client, documents the specific objectives and based on those objectives construct and manage the portfolio.

Features

- Structured / Customized portfolio based on the client's specification
- Combination of Assets under which investment are allowed to Portfolio Managers

Suitability: Portfolio to be formed in accordance to Risk Return expectation of client

Ideal Tenure :Appx. 24+ months

Note: The portfolio of each client may differ from that of the other client in the given portfolios, at the Portfolio Manager's discretion. The funds remaining to be invested in any of the above portfolios at any given point of time may be deployed by the Portfolio Manager in any other short-term investments.

The performance of the Portfolios may not be strictly comparable with the performance of the Indices, due to the inherent differences in the construction of the portfolios. The Portfolio Manager may from time to time, review the benchmark selection process and make suitable changes as to use of the benchmark, or related to composition of the benchmark, whenever it deems necessary.

3. Multi Cap Portfolio { Earlier Name Large Cap Portfolio}

The Multi Cap Portfolio has been created on our ND-PMS platform and is a tailor made portfolio created and operated with the involvement and concurrence of the investor in every investment decision. The Portfolio Strategy and objective is to generate long term capital appreciation for investors from a portfolio of Large, mid and Small cap stocks. The Portfolio Manager will apply a Bottom-Up Approach to identify companies with quality management, strong business model, consistent growth reasonable valuation. The portfolio will consist of a diversified set of stocks and sectors and other scrips with client consent.

Features

- Consists only of Large, mid and Small cap stocks
- Portfolio structured on the basis on the client's specification

Suitability: Portfolio to be formed in accordance to Risk Return expectation of client

Ideal tenure: Approx. 24+ Months.

Benchmark : S&P BSE 500

Note: The portfolio of each client may differ from that of the other client in the given portfolios, as the portfolios are prepared on the basis of orders received from the clients, although it may to some extent be based on our advice. The Scheme was earlier known as Large Cap Portfolio

4. The Opportunity Portfolio {Earlier Name Dynamic NDPMS Portfolio}

Ideal tenure: Approx. 24+ Months.

Benchmark : S&P BSE 500

The policies for investments in associates/group companies of the portfolio manager and the maximum percentage of such investments therein subject to the applicable laws/regulations/ guidelines

There are no investments in associates/ group companies of the Portfolio Manager

6) Risk factors

1) General Risks Factors

1) Investment in Securities, whether on the basis of fundamental or technical analysis or otherwise, is subject to market risks which include price fluctuations, impact cost, basis risk etc.

2) The Portfolio Manager does not assure that the objectives of any of the Investment Approach will be achieved and investors are not being offered any guaranteed returns. The investments may not be suitable to all the investors.

3) [Past performance of the Portfolio Manager does not indicate the future performance of the same or any other Investment Approach in future or any other future Investment Approach of the Portfolio Manager. [OR] The Portfolio Manager has no previous experience/track record in the field of portfolio management services. However, the Principal Officer, directors and other key management personnel of the Portfolio Manager have rich individual experience.]

4) The names of the Investment Approach do not in any manner indicate their prospects or returns.

5) Appreciation in any of the Investment Approach can be restricted in the event of a high asset allocation to cash, when stock appreciates. The performance of any Investment Approach may also be affected due to any other asset allocation factors.

6) When investments are restricted to a particular or few sector(s) under any Investment Approach; there arises a risk called non-diversification or concentration risk. If the sector(s), for any reason, fails to perform, the Portfolio value will be adversely affected.

7) Each Portfolio will be exposed to various risks depending on the investment objective, Investment Approach and the asset allocation. The investment objective, Investment Approach and the asset allocation may differ from Client to Client. However, generally, highly concentrated Portfolios with lesser number of stocks will be more volatile than a Portfolio with a larger number of stocks.

8) The values of the Portfolio may be affected by changes in the general market conditions and factors and forces affecting the capital markets, in particular, level of interest rates, various market related factors, trading volumes, settlement periods, transfer procedures, currency exchange rates, foreign investments, changes in government policies, taxation, political, economic and other developments, closure of stock exchanges, etc.

9) The Portfolio Manager shall act in fiduciary capacity in relation to the Client's Funds and shall endeavour to mitigate any potential conflict of interest that could arise while dealing in a manner which is not detrimental to the Client.

2) Risk associated with equity and equity related instruments

1) Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of equity and equity related instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies

of the government, taxation laws, political, economic or other developments, which may have an adverse impact on individual Securities, a specific sector or all sectors. Consequently, the value of the Client's Portfolio may be adversely affected.

2) Equity and equity related instruments listed on the stock exchange carry lower liquidity risk, however the Portfolio Manager's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio Manager to make intended Securities purchases due to settlement problems could cause the Client to miss certain investment opportunities. Similarly, the inability to sell Securities held in the Portfolio may result, at times, in potential losses to the Portfolio, should there be a subsequent decline in the value of Securities held in the Client's Portfolio.

3) Risk may also arise due to an inherent nature/risk in the stock markets such as, volatility, market scams, circular trading, price rigging, liquidity changes, de-listing of Securities or market closure, relatively small number of scrip's accounting for a large proportion of trading volume among others.

3) Risk associated with debt and money market securities

1) Interest Rate Risk
Fixed income and money market Securities run interest-rate risk. Generally, when interest rates rise, prices of existing fixed income Securities fall and when interest rate falls, the prices increase. In case of floating rate Securities, an additional risk could arise because of the changes in the spreads of floating rate Securities. With the increase in the spread of floating rate Securities, the price can fall and with decrease in spread of floating rate Securities, the prices can rise.

2) Liquidity or Marketability Risk
The ability of the Portfolio Manager to execute sale/purchase order is dependent on the liquidity or marketability. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The Securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these Securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances.

3) Credit Risk
Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

4) Reinvestment Risk
This refers to the interest rate risk at which the intermediate cash flows received from the Securities in the Portfolio including maturity proceeds are reinvested. Investments in fixed income Securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

4) Risk associated with derivatives instruments

1) The use of derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Portfolio Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Portfolio Manager involve uncertainty and decision of Portfolio Manager may not always be profitable. No assurance can be given that the Portfolio Manager will be able to identify or execute such strategies.

2) Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price of interest rate movements correctly. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Other risks include settlement risk, risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Portfolio Manager may not be able to sell or purchase derivative quickly enough at a fair price.

5) Risk associated with investments in mutual fund schemes

1) Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the schemes will be achieved. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in markets, interest rates, prevailing political and economic environment, changes in government policy, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes, etc.

2) As with any securities investment, the NAV of the units issued under the schemes can go up or down, depending on the factors and forces affecting the capital markets.

3) Past performance of the sponsors, asset management company (AMC)/fund does not indicate the future performance of the schemes of the fund.

4) The Portfolio Manager shall not be responsible for liquidity of the scheme's investments which at times, be restricted by trading volumes and settlement periods. The time taken by the scheme for redemption of units may be significant in the event of an inordinately large number of redemption requests or of a restructuring of the schemes.

5) The Portfolio Manager shall not responsible, if the AMC/ fund does not comply with the provisions of SEBI (Mutual Funds) Regulations, 1996 or any other circular or acts as amended from time to time. The Portfolio Manager shall also not be liable for any changes in the offer document(s)/scheme information document(s) of the scheme(s), which may vary substantially depending on the market risks, general economic and political conditions in India and other countries globally, the monitory and interest policies, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally.

6) The Portfolio Manager shall not be liable for any default, negligence, lapse error or fraud on the part of the AMC/the fund.

7) While it would be the endeavor of the Portfolio Manager to invest in the schemes in a manner, which will seek to maximize returns, the performance of the underlying schemes may vary which may lead to the returns of this portfolio being adversely impacted.

8) The scheme specific risk factors of each of the underlying schemes become applicable where the Portfolio Manager invests in any underlying scheme. Investors who intend to invest in this portfolio are required to and are deemed to have read and understood the risk factors of the underlying schemes.

6) Risk arising out of Non-diversification

1) The investment according to investment objective of a Portfolio may result in concentration of investments in a specific security / sector/ issuer, which may expose the Portfolio to risk arising out of non-diversification. Further, the portfolio with investment objective to invest in a specific sector / industry would be exposed to risk associated with such sector / industry and its performance will be dependent on performance of such sector / industry. Similarly, the portfolios with investment objective to have larger exposure to certain market capitalization buckets, would be exposed to risk associated with underperformance of those relevant market capitalization buckets. Moreover, from the style orientation perspective, concentrated exposure to value or growth stocks based on the requirement of the mandate/strategy may also result in risk associated with this factor.

7) Risk arising out of investment in Associate and Related Party transactions

1) All transactions of purchase and sale of securities by portfolio manager and its employees who are directly involved in investment operations shall be disclosed if found having conflict of interest with the transactions in any of the client's portfolio.

2) The Portfolio Manager may utilize the services of its group companies or associates for managing the portfolios of the client. In such scenarios, the Portfolio Manager shall endeavor to mitigate any potential conflict of interest that could arise while dealing with such group companies/associates by ensuring that such dealings are at arm's length basis.

3) The Portfolios may invest in its Associates/ Related Parties relating to portfolio management services and thus conflict of interest may arise while investing in securities of the Associates/Related Parties of the Portfolio Manager. Portfolio Manager shall ensure that such transactions shall be purely on arms' length basis and to the extent and limits permitted under the Regulations. Accordingly, all market risk and investment risk as applicable to securities may also be applicable while investing in securities of the Associates/Related Parties of the Portfolio Manager.

7) Nature of expenses

The following are indicative types of expenses. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management Services Agreement and the agreements in respect of each of the services availed at the time of execution of such agreements.

1) Annual Management Fees: This fee relates to the portfolio management services offered by Portfolio Manager where the clients are charged percentage based annual management fees ranging from Nil to 2 % per annum on average daily assets under management charged annually and billed quarterly. Taxes including GST are charged on the fees as applicable.
2) Performance Fee: The Portfolio Manager shall charge performance based fees annually ranging from Nil to 25% on increase in portfolio value in excess of the previously achieved highest value (high watermark principle) and hurdle rate. Taxes including GST are charged on the fees as applicable.
3) Exit Fees / Load: If the redemption is done prematurely (within 2 years of account opening) at the option of the client, the Portfolio Manager may levy Exit Charges ranging from Nil to 2% of the client corpus.
4) Custodian/Depository Participant fee: The charges relating to opening and operation of demat accounts, custody and transfer charges of shares, bonds and units, custodian charges, etc. will not be exceeding 10 basis points (0.10%) annually of the average daily assets under management of the client. These charges are charged on monthly basis as specified in the Portfolio Management Services Agreement. Taxes including GST are charged on the fees as applicable.
5) Brokerage and transaction cost: The Brokerage and other charges like Service tax, Stamp Duty, Security Transaction Tax, SEBI fees, Exchange fees, Settlement charges, Bank charges, Turnover Tax, Foreign Tax, GST and other charges (if any), as per the rates existing from time to time, will be charged on actual. The investment by Portfolio Manager will be done by any SEBI Registered stock broker only and would be as per the rates negotiated between Portfolio Manager and the broker. The charges relating to brokerage will be recovered on actual by Portfolio Manager.
6) Registrar and transfer agent fee: Charges payable to the Registrar and Share Transfer Agents in connection with effecting transfer of securities and bonds, units, etc. including stamp charges, cost of affidavit, notary charges, postage and courier charges and other related charges will be recovered on actual.
7) Certification charges and Professional fees: Any charges payable for outsourced professional services like taxation, auditing, and any legal services, franking charges and notarizations, etc. incurred on behalf of the client by the Portfolio Manager, will be charged to the client on actual.
8) Out of Pocket and Other Incidental Expenses: Charges in connection with day to day operations like courier expenses, stamp duty, document franking charges, notary charges, service tax, other statutory levies, opening of bank, trading and demat accounts and any other out of pocket expenses incurred by the Portfolio Manager, on behalf of the client, may be recovered from the client. Any other charges and levies by the Government or other regulatory authorities, such as GST and other charges levied by third parties in connection with transactions executed by the Portfolio Manager on behalf of the client maybe recovered from the client. All aforementioned expenses would be to the account of the client on the basis of actual expenses

8) Taxation

1) General

The following information is based on the tax laws in force in India as of the date of this Disclosure Document and reflects the Portfolio Manager's understanding of applicable provisions. The tax implications for each Client may vary significantly based on residential status and individual circumstances. As the information provided is generic in nature, Clients are advised to seek guidance from their own tax advisors or consultants regarding the tax treatment of their income, losses, and expenses related to investments in the portfolio management services. The Client is responsible for meeting advance tax obligations as per applicable laws.

Under the provisions of the Income Tax Act, 1961, clients are responsible and liable for taxes on any income generated from investments made in the portfolio management Investment Approach. Systematix Shares and Stocks (India) Limited will not deduct tax on capital gains generated from these investments. However, this is subject to the provisions of the Income Tax Act, 1961 or any relevant amendments outlined in the Finance Bill. "Income-tax Act" shall mean the Indian Income-tax Act, 1961, as amended, re-enacted or replaced from time to time together with all applicable bye-laws, rules, regulations, orders, ordinances, policies, directions and the like issued thereunder

Systematix Shares and Stocks (India) Limited will provide clients with adequate statements for accounting purposes, facilitating compliance with tax regulations and assisting clients in fulfilling their tax obligations

2) Tax deducted at source

In the case of resident clients, the income arising by way of dividend, interest on securities, income from units of mutual fund, etc. from investments made in India are subject to the provisions of tax deduction at source (TDS). Residents without Permanent Account Number (PAN) are subjected to a higher rate of TDS.

In the case of non-residents, any income received or accrues or arises; or deemed to be received or accrue or arise to him in India is subject to the provisions of tax deduction at source under the IT Act. The authorized dealer is obliged and responsible to make sure that all such relevant compliances are made while making any payment or remittances from India to such non-residents. Also, if any tax is required to be withheld on account of any future legislation, the Portfolio Manager shall be obliged to act in accordance with the regulatory requirements in this regard. Non-residents without PAN or tax residency certificate (TRC) of the country of his residence are currently subjected to a higher rate of TDS.

The Finance Act, 2021 introduced a special provision to levy higher rate for TDS for the residents who are not filing income-tax return in time for previous two years and aggregate of TDS is INR 50,000 or more in each of these two previous years. This provision of higher TDS is not applicable to a non-resident who does not have a permanent establishment in India and to a resident who is not required to furnish the return of income.

3) Long term capital gains

Where investment under portfolio management services is treated as investment, the gain or loss from transfer of Securities shall be taxed as capital gains under section 45 of the IT Act.

Period of Holding

The details of period of holding for different capital assets for the purpose of determining long term or short term capital gains are explained hereunder:

Securities	**Position upto 22 July 2024 Period of Holding**	**Position on or after 23 July 2024 Period of Holding**	**Characterization**
Listed Securities (other than unit) and unit of equity oriented mutual funds, unit of UTI, zero coupon bonds	More than twelve (12) months	More than twelve (12) months	Long-term capital asset
	Twelve (12) months or less	Twelve (12) months or less	Short-term capital asset
Unlisted shares of a company	More than twenty-four (24) months	More than twenty-four (24) months	Long-term capital asset
	Twenty-four (24) or less	Twenty-four (24) or less	Short-term capital asset
Other Securities (other than Specified Mutual Fund or Market Linked Debenture acquired on or after 1 April 2023; or unlisted bond or unlisted debenture)	More than Thirty-six (36) months	More than twenty-four (24) months	Long-term capital asset
	Thirty-six (36) months or less	Twenty-four (24) or less	Short-term capital asset
Specified Mutual Fund or Market Linked Debenture acquired on or after 1 April 2023	Any period	Any period	Short-term capital asset
Unlisted bond or unlisted debenture	More than 36 months		Long-term capital asset
	36 months or less	Any period	Short-term capital asset

- **Definition of Specified Mutual Fund:**

  Before 1st April 2025:

  *"**Specified Mutual Fund**" means a Mutual Fund by whatever name called, where not more than thirty-five per cent of its total proceeds is invested in the equity shares of domestic companies.*

  On and after 1st April 2025:

  *"**Specified Mutual Fund**" means, —*

  (a) a Mutual Fund by whatever name called, which invests more than sixty-five per cent. of its total proceeds in debt and money market instruments; or

  (b) a fund which invests sixty-five per cent. or more of its total proceeds in units of a fund referred to in sub-clause (a).

- **Definition of debt and money market instruments:**

  *"**debt and money market instruments**" shall include any securities, by whatever name called, classified or regulated as debt and money market instruments by the Securities and Exchange Board of India.*

- **Definition of Market Linked Debenture:**

  *"**Market Linked Debenture**" means a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to the market returns on other underlying securities or indices, and includes any security classified or regulated as a market linked debenture by SEBI.*

- **For listed equity shares in a domestic company or units of equity oriented fund or business trust**

  The Finance Act 2018 changed the method of taxation of long-term capital gains from transfer of listed equity shares and units of equity oriented fund or business trust.

  As per section 112A of the IT Act, long term capital gains exceeding INR 1 lakh arising on transfer of listed equity shares in a company or units of equity oriented fund or units of a business trust is taxable at 10% , provided such transfer is chargeable to STT. This exemption limit has been increased from INR 1 lakh to INR 1.25 lakh and tax rate has been increased from 10% to 12.5% with effect from 23 July 2024. Further, to avail such concessional rate of tax, STT should also have been paid on acquisition of listed equity shares, unless the listed equity shares have been acquired through any of the notified modes not requiring to fulfil the pre-condition of chargeability to STT.

  Long term capital gains arising on transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and consideration is paid or payable in foreign currency, where STT is not chargeable, is also taxed at a rate of 10%. This benefit is available to all assessees. This tax rate is increased from 10% to 12.5%.

  The long term capital gains arising from the transfer of such Securities shall be calculated without indexation. In computing long term capital gains, the cost of acquisition (COA) is an item of deduction from the sale consideration of the shares. To provide relief on gains already accrued upto 31 January 2018, a mechanism has been provided to "step up" the COA of Securities. Under this mechanism, COA is substituted with FMV, where sale consideration is higher than the FMV. Where sale value is higher than the COA but not higher than the FMV, the sale value is deemed as the COA.

  Specifically in case of long term capital gains arising on sale of shares or units acquired originally as unlisted shares/units upto 31 January 2018, COA is substituted with the "indexed COA" (instead of FMV) where sale consideration is higher than the indexed COA. Where sale value is higher than the COA but not higher than the indexed COA, the sale value is deemed as the COA. This benefit is available only in the case where the shares or units, not listed on a recognised stock exchange as on the 31 January 2018, or which became the property of the assessee in consideration of share which is not listed on such exchange as on the 31 January 2018 by way of transaction not regarded as transfer under section 47 (e.g. amalgamation, demerger), but listed on such exchange subsequent to the date of transfer, where such transfer is in respect of sale of unlisted equity shares under an offer for sale to the public included in an initial public offer.

  The CBDT has clarified that 10% withholding tax will be applicable only on dividend income

distributed by mutual funds and not on gain arising out of redemption of units.

No deduction under Chapter VI-A or rebated under Section 87A will be allowed from the above long term capital gains.

- **For other capital assets (securities and units) in the hands of resident of India**

Long-term capital gains in respect of capital asset (all securities and units other than listed shares and units of equity oriented mutual funds and business trust) is chargeable to tax at the rate of 20% plus applicable surcharge and education cess, as applicable. The capital gains are computed after taking into account cost of acquisition as adjusted by cost inflation index notified by the Central Government and expenditure incurred wholly and exclusively in connection with such transfer. This tax rate is reduced from 20% to 12.5%; but no indexation benefit will be available with effect from 23 July 2024.

As per Finance Act, 2017, the base year for indexation purpose has been shifted from 1981 to 2001 to calculate the cost of acquisition or to take Fair Market Value of the asset as on that date. Further, it provides that cost of acquisition of an asset acquired before 1 April 2001 shall be allowed to be taken as Fair Market Value as on 1 April 2001.

- **For capital assets in the hands of Foreign Portfolio Investors (FPIs)**

Long term capital gains, arising on sale of debt Securities, debt oriented units (other than units purchased in foreign currency and capital gains arising from transfer of such units by offshore funds referred to in section 115AB) are taxable at the rate of 10% under Section 115AD of the IT Act. This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024.Such gains would be calculated without considering benefit of (i) indexation for the COA and (ii) determination for capital gain/loss in foreign currency and reconversion of such gain/loss into the Indian currency.

Long term capital gains, arising on sale of listed shares in the company or units of equity oriented funds or units of business trust and subject to conditions relating to payment of STT, are taxable at 10% as mentioned in para 12.10.2 above. This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024.

- **For other capital asset in the hands of non-resident Indians**

Under section 115E of the IT Act, any income from investment or income from long-term capital gains of an asset other than specified asset as defined in Section 115C (specified assets include shares of Indian company, debentures and deposits in an Indian company which is not a private company and Securities issued by Central Government or such other Securities as notified by Central Government) is chargeable at the rate of 20%. Income by way long-term capital gains of the specified asset is, however, chargeable at the rate of 10% plus applicable surcharge and cess (without benefit of indexation and foreign currency fluctuation). This tax rate has been increased from 10% to 12.5% with effect from 23 July 2024.

4) **Short term capital gains**

Section 111A of the IT Act provides that short-term capital gains arising on sale of listed equity shares of a company or units of equity oriented fund or units of a business trust are chargeable to income tax at a concessional rate of 15% plus applicable surcharge and cess, provided such transactions are entered on a recognized stock exchange and are chargeable to Securities Transaction Tax (STT). This tax rate has been increased from 15% to 20% with effect from 23 July 2024. However, the above shall not be applicable to transaction undertaken on a recognized stock exchange located in any

International Financial Services Centre and where the consideration for such transaction is paid or payable in foreign currency. Further, Section 48 provides that no deduction shall be allowed in respect of STT paid for the purpose of computing Capital Gains.

Short term capital gains in respect of other capital assets (other than listed equity shares of a company or units of equity oriented fund or units of a business trust) are chargeable to tax as per the relevant slab rates or fixed rate, as the case may be.

The Specified Mutual Funds or Market Linked Debentures acquired on or after 1 April 2023 will be treated as short term capital asset irrespective of period of holding as per Section 50AA of the IT Act. The unlisted bonds and unlisted debentures have been brought within the ambit of Section 50AA of the IT Act with effect from 23 July 2024. Lastly for non-resident clients, the bank may deduct short-term Capital Gains tax at the source.

5) **Profits and gains of business or profession**

If the Securities under the portfolio management services are regarded as business/trading asset, then any gain/loss arising from sale of such Securities would be taxed under the head "Profits and Gains of Business or Profession" under section 28 of the IT Act. The gain/ loss is to be computed under the head "Profits and Gains of Business or Profession" after allowing normal business expenses (inclusive of the expenses incurred on transfer) according to the provisions of the IT Act.

Interest income arising on Securities could be characterized as 'Income from other sources' or 'business income' depending on facts of the case. Any expenses incurred to earn such interest income should be available as deduction, subject to the provisions of the IT Act.

6) **Losses under the head capital gains/business income**

In terms of section 70 read with section 74 of the IT Act, short term capital loss arising during a year can be set-off against short term as well as long term capital gains. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during the subsequent 8 assessment years. A long-term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during the subsequent 8 assessment years.

Business loss is allowed to be carried forward for 8 assessment years and the same can be set off against any business income.

7) **General Anti Avoidance Rules (GAAR)**

GAAR may be invoked by the Indian income-tax authorities in case arrangements are found to be impermissible avoidance arrangements. A transaction can be declared as an impermissible avoidance arrangement, if the main purpose of the arrangement is to obtain a tax benefit and which satisfies one of the 4 (four) below mentioned tainted elements:

1) The arrangement creates rights or obligations which are ordinarily not created between parties dealing at arm's length;
2) It results in directly / indirectly misuse or abuse of the IT Act;
3) It lacks commercial substance or is deemed to lack commercial substance in whole or in part; or
4) It is entered into, or carried out, by means, or in a manner, which is not normally employed for bona fide purposes.

In such cases, the tax authorities are empowered to reallocate the income from such arrangement, or

recharacterize or disregard the arrangement. Some of the illustrative powers are:

1) Disregarding or combining or recharacterising any step in, or a part or whole of the arrangement;
2) Ignoring the arrangement for the purpose of taxation law;
3) Relocating place of residence of a party, or location of a transaction or situation of an asset to a place other than provided in the arrangement;
4) Looking through the arrangement by disregarding any corporate structure; or
5) Recharacterising equity into debt, capital into revenue, etc.

The GAAR provisions would override the provisions of a treaty in cases where GAAR is invoked. The necessary procedures for application of GAAR and conditions under which it should not apply, have been enumerated in Rules 10U to 10UC of the Income-tax Rules, 1962. The Income-tax Rules, 1962 provide that GAAR should not be invoked unless the tax benefit in the relevant year does not exceed INR 3 crores.

On 27 January 2017, the CBDT has issued clarifications on implementation of GAAR provisions in response to various queries received from the stakeholders and industry associations. Some of the important clarifications issued are as under:

1) Where tax avoidance is sufficiently addressed by the Limitation of Benefit Clause (LOB) in a tax treaty, GAAR should not be invoked.
2) GAAR should not be invoked merely on the ground that the entity is located in a tax efficient jurisdiction.
3) GAAR is with respect to an arrangement or part of the arrangement and limit of INR 3 crores cannot be read in respect of a single taxpayer only.

8) **FATCA Guidelines**

According to the Inter-Governmental Agreement read with the Foreign Account Tax Compliance Act (FATCA) provisions and the Common Reporting Standards (CRS), foreign financial institutions in India are required to report tax information about US account holders and other account holders to the Indian Government. The Indian Government has enacted rules relating to FATCA and CRS reporting in India. A statement is required to be provided online in Form 61B for every calendar year by 31 May. The reporting financial institution is expected to maintain and report the following information with respect to each reportable account:

(a) the name, address, taxpayer identification number and date and place of birth;
(b) where an entity has one or more controlling persons that are reportable persons:
    (i) the name and address of the entity, TIN assigned to the entity by the country of its residence; and
    (ii) the name, address, date of birth, place of birth of each such controlling person and TIN assigned to such controlling person by the country of his residence.
(c) account number (or functional equivalent in the absence of an account number);
(d) account balance or value (including, in the case of a cash value insurance contract or annuity contract, the cash value or surrender value) at the end of the relevant calendar year; and
(e) the total gross amount paid or credited to the account holder with respect to the account during the relevant calendar year.

Further, it also provides for specific guidelines for conducting due diligence of reportable accounts, viz. US reportable accounts and other reportable accounts (i.e. under CRS).

Applicants, including joint holders, guardians, and POA holders, must refer to and complete/sign a separate "FATCA declaration form" as a mandatory requirement. Applications lacking this information or

declaration will be considered incomplete and may be rejected.

9) **Goods and Services Tax on services provided by the portfolio manager**

Goods and Services Tax (GST) will be applicable on services provided by the Portfolio Manager to its Clients. Accordingly, GST at the rate of 18% would be levied on fees if any, payable towards portfolio management fee.

9) Accounting policies

1) **Client Accounting**

1) The Portfolio Manager shall maintain a separate Portfolio record in the name of the Client in its book for accounting the assets of the Client and any receipt, income in connection therewith as provided under Regulations. Proper books of accounts, records, and documents shall be maintained to explain transactions and disclose the financial position of the Client's Portfolio at any time.

2) The books of account of the Client shall be maintained on an historical cost basis.

3) Transactions for purchase or sale of investments shall be recognised as of the trade date and not as of the settlement date, so that the effect of all investments traded during a Financial Year are recorded and reflected in the financial statements for that year.

4) All expenses will be accounted on due or payment basis, whichever is earlier.

5) The cost of investments acquired or purchased shall include brokerage, stamp charges and any charges customarily included in the broker's contract note. In respect of privately placed debt instruments any front-end discount offered shall be reduced from the cost of the investment. Sales are accounted based on proceeds net of brokerage, stamp duty, transaction charges and exit loads in case of units of mutual fund. Securities transaction tax, demat charges and Custodian fees on purchase/ sale transaction would be accounted as expense on receipt of bills. Transaction fees on unsettled trades are accounted for as and when debited by the Custodian.

6) Tax deducted at source (TDS) shall be considered as withdrawal of portfolio and debited accordingly.

7) Fixed Deposits with banks: Fixed Deposits with banks will be valued at the amount deployed in the Fixed Deposit. Additionally, the interest accrued by the respective banks on these Fixed Deposits will be considered in the valuation when credited by the banks.TDS (Tax Deducted at Source) on interest on Fixed Deposits will be treated as a withdrawal from the Portfolio and will be excluded accordingly from the valuation.

8) Securities Transaction Tax paid on purchase/sale of securities including derivatives, during the financial year is recognized as an expense in the books of accounts.

9) Interest on Debt instruments/ Fixed Deposit with banks is accounted on accrual basis.

2) **Recognition of portfolio investments and accrual of income**

1) In determining the holding cost of investments and the gains or loss on sale of investments, the "first in first out" (FIFO) method will be followed.

2) Unrealized gains/losses are the differences, between the current market value/NAV and the historical cost of the Securities. For derivatives and futures and options, unrealized gains and losses will be calculated by marking to market the open positions.

3) Dividend on equity shares and interest on debt instruments shall be accounted on accrual basis. Further, mutual fund dividend shall be accounted on receipt basis.

4) Bonus shares/units to which the security/scrip in the portfolio becomes entitled will be recognized only when the original share/scrip on which bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis.

5) Similarly, right entitlements will be recognized only when the original shares/security on which the right entitlement accrues is traded on the stock exchange on the ex-right basis.

6) In respect of all interest-bearing Securities, income shall be accrued on a day-to-day basis as it is earned.

7) Where investment transactions take place outside the stock exchange, for example, acquisitions through private placement or purchases or sales through private treaty, the transactions shall be recorded, in the event of a purchase, as of the date on which the scheme obtains an enforceable obligation to pay the price or, in the event of a sale, when the scheme obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.

3) **Valuation of portfolio investments**

1) Investments in listed equity shall be valued at the last quoted closing price on the stock exchange. When the Securities are traded on more than one recognised stock exchange, the Securities shall be valued at the last quoted closing price on the stock exchange where the security is principally traded. It would be left to the portfolio manager to select the appropriate stock exchange, but the reasons for the selection should be recorded in writing. There should, however, be no objection for all scrips being valued at the prices quoted on the stock exchange where a majority in value of the investments are principally traded. When on a particular valuation day, a security has not been traded on the selected stock exchange, the value at which it is traded on another stock exchange may be used. When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the selected stock exchange or any other stock exchange, as the case may be, on the earliest previous day may be used provided such date is not more than thirty days prior to the valuation date.

2) Investments in units of a mutual fund are valued at NAV of the relevant scheme. Provided investments in mutual funds shall be through direct plans only.

3) Debt Securities and money market Securities shall be valued as per the prices given by third party valuation agencies or in accordance with guidelines prescribed by Association of Portfolio Managers in India (APMI) from time to time.

(7) Unlisted equities are valued at prices provided by independent valuer appointed by the Portfolio Manager basis the International Private Equity and Venture Capital Valuation (IPEV) Guidelines

on a semi-annual basis.

(8) In case of any other Securities, the same are valued as per the standard valuation norms applicable to the mutual funds.

The Investor may contact the customer services official of the Portfolio Manager for the purpose of clarifying or elaborating on any of the above policy issues.

The Portfolio Manager may change the valuation policy for any particular type of security consequent to any regulatory changes or change in the market practice followed for valuation of similar Securities. However, such changes would be in conformity with the Regulations.

10) Investor Services:

1. Name, address and contact details of the investor relation officer who shall attend to the investor queries and complaints:

   Investor Relation Officer: Mr. Ajay S. Bendkhale

   Systematix Shares and Stocks (India) Ltd.

   The Capital, A-wing, No. 603 – 606, 6th Floor, Plot No. C-70, G Block, Bandra Kurla Complex, Bandra (East), Mumbai – 400 051 Board: +91 (22) 66198000/40358000 Direct: +91 (22) 67048680/40874080

   Email: pms@systematixgroup.in Scores Login id: PFM00224 { https://scores.sebi.gov.in/}

2. **Grievance Redressal and Dispute Settlement mechanism:**

   a. Grievance Redressal:

   If any queries / grievances / issues received from clients, Investor Relation Officer (IRO) shall attend and address it and will resolve the same within 3 working days. In case IRO is unable to resolve clients query, in that case issue will be escalated to Manager and he will try to resolve the issue in next 4 working days. If still the grievance is not been resolved then it will be escalated to Principal Officer (PO) who shall respond to clients grievances in next 8 working days with the appropriate solution.

   b. Dispute Settlement Mechanism is outlined as follows:

      i. Mutual Discussion: Initially, all disputes, differences, claims, or questions arising from the agreement with the Client or related to its terms shall be settled through mutual discussion between the parties.
      ii. Arbitration: If mutual discussion fails to resolve the dispute, it shall be referred to and settled by arbitration. The arbitration process will be conducted in accordance with the provisions of the Arbitration and Conciliation Act, 1996, or any statutory modification thereof.
      iii. Location and Language: The arbitration proceedings shall take place in Mumbai or any other place decided by the regulators. The proceedings will be conducted in English.
      iv. This mechanism ensures that any disputes between the Portfolio Manager and the Client are resolved through a structured and legally binding process, providing a fair and impartial means of settling disagreements.

11) Details of the diversification policy of the portfolio manager

1) Portfolio diversification is a strategy of risk management used in investing, which allows to mitigate risks by allocating the funds in multiple asset types. It helps to mitigate associated risks on the overall investment portfolio.

2) We shall invest in equity and equity related securities and shall obtain a one-time prior positive consent with an option to indicate dissent, in case client does not want to undertake any investment in the securities of associates/related parties of respective Portfolio Manager. The client shall also have an option to specify a limit on investments in the securities of associates/related parties of respective Portfolio Manager, below the ceiling as specified below. However, from time to time on opportunistically basis, may also choose to invest in money market instruments, units of mutual funds, ETFs or other permissible securities/products in accordance with the Applicable Laws

3) For investments in securities of Associates/ Related Parties, the Portfolio Manager shall comply with the following:

4) Invest up to a maximum of 30% of the Client's AUM in the securities of its associates/related parties and ensure compliance with the following limits:

Security	Limit for investment in single associate/related party (as percentage of Client's AUM)	Limit for investment across multiple associates/related parties (as percentage of Client's AUM)
Equity	15%	25%
Debt and hybrid securities	15%	25%
Equity + Debt + Hybrid securities*	30%	

*Hybrid securities includes units of Real Estate Investment Trusts (REITs), units of Infrastructure Investment Trusts (InvITs), convertible debt securities and other securities of like nature.

The aforementioned limits shall be applicable only to direct investments by us in equity and debt/hybrid securities of its associates/related parties and not to any investments in the Mutual Funds. We shall not make any investment in unrated and below investment grade securities
